

THIS MONTH SPECIAL PROMOTION !!!! WITH ONE LOGO PRINTING & CARRYING POUCH

World Travel adaptor

[Travel often? On a holiday soon? You need one of these.](#)

[Find out why here.](#)

Think of yourself as a traveler and imagine this-you flew 13 hours for a business trip or even worse a vacation and you realise that the sockets your destination uses doesn't match your appliance chargers.

You experience much stress because now, you either will have to pay too much for an adapter at the airport or spend hours communicating to a salesperson what you need because of a language barrier and then pay too much (because unsavvy tourists are easy to cheat; we all know this).And none of the other services you used to arrive there warned you about this, much less provided a solution.

In your head you may go something like GGGRRRRRR!!! But finally someone have a solution for this and you are getting the credit for it. Yes you will.That is because by giving one of these [travel](#) adapters you will be saving them time and money, and hardly anyone can have enough of these two.

Model: tiger tp003 Nice, Small and Attractive
